

## **ECE525: Homework #0**

Due: Session 3 [August 28]

### **Background**

Please spend a few minutes to tell me about your background. Mainly courses taken or work experience that prepared you for this course. Please comment on your experience with protective relays and with MathCAD.

### **Objectives**

Now that you've had a chance to hear my objectives for this course, I would like to hear what you would like to get out of this course. I will try to meet your objectives either this semester or next semester if possible.
